# 2017 HALTON FUTURES

## TECH INNOVATION SUMMIT

### HEALTH . TECH . CONNECT

October 17, 2017 | 9am-4pm  
Oakville Conference Centre

REGISTER NOW  
FOR EARLYBIRD  
TICKETS

Following the success of last year's inaugural Halton FUTURES Innovation Summit & Awards, this year's one-day Summit event will shed light on how smart, innovative technology solutions are transforming the delivery of healthcare services from the hospital ER to the clinic, and addressing the key challenges in our healthcare system so as to enhance the patient experience and wellness outcomes.

The future of socially driven innovation in healthcare is here, enabled by several advanced technologies such as mobile devices, cloud-based data analytics, internet-of-things (IoT), augmented and virtual reality imaging (AR/VR), 3D modeling and printing, and the emerging use of artificial intelligence (AI). These and other technologies are being leveraged at a remarkable pace to deliver smart, data-integrated solutions for enhanced patient-centered healthcare. Halton's regional healthcare providers and physicians are seeking to deploy these solutions to patients and family members using mobile devices and real-time connectivity platforms such as telemedicine, with the goal of delivering exemplary patient care services in Halton Region, always.

### THE CONFERENCE

Join us on October 17, 2017 for Halton FUTURES Tech Innovation Summit that will bring together our regional leaders:

- Growing technology startups & SMEs
- Global corporate innovation executives
- Healthcare C-suite leaders
- Physicians - entrepreneurs
- Academic researchers
- Technology investors & funders
- Regional innovation champions

to connect, collaborate and transform tech innovations that address healthcare challenges into applied health technology solutions that are being developed and put to work in Halton region and neighboring communities.

Hosted and presented by:

Supporting partners:

## SUMMIT OBJECTIVES & BENEFITS

A key outcome of this innovation summit will be to help position Halton region to develop and deliver smart, data-integrated solutions for enhanced patient-centered healthcare services, support the growth of small business in this sector, and foster new partnership and investment opportunities. The outcomes expected from the 2017 summit are:

- Raising awareness about Halton's growing innovation and entrepreneur ecosystem.
- Building a cluster of Digital Health Technology innovators in Halton region.
- Enhancing collaboration and partnership opportunities with private sector and academic researchers by sharing of knowledge and exchanging ideas.
- Creating innovative solutions to the healthcare challenges in our community, toward the goal of delivering exemplary patient-centered healthcare in Southern Ontario.

# 2017 HALTON FUTURES TECH INNOVATION SUMMIT

More than 200 entrepreneurs, innovators and business professionals converged at the inaugural 2016 Halton FUTURES Innovation Summit, to learn about new technologies, products and solutions emerging from Halton region.

Join us for this year's seminal summit to discuss the current challenges in community-based healthcare and explore solutions enabled by integrating digital technologies and social innovation.

## EXHIBITING & SPONSORING OPPORTUNITIES

If you are interested in enhancing your company's visibility at this regional summit, and you want to show support, then you may choose among several Sponsorship and Exhibitor opportunities that will suit your interests.
